

1st Annual Report

2015-2016

Chairman's Letter to Shareholder

Dear Shareholders,

It gives me immense pleasure to write to you at the close of First Financial Year, which was a landmark year for Bigbloc Construction Limited. Let me begin this letter with a bird's eye view of the Indian economy, then move on to what is happening in infrastructure and the construction industry and end with a brief discussion on your Company.

According to the latest estimates of GDP and Gross Value Added (GVA) released by the Government of India's Central Statistical Organisation, the Indian economy is certainly getting back to a higher growth path. For 2015-16, real (or inflation adjusted) GDP has grown by 7.6% — up from 7.2% in 2014-15. That makes India the fastest growing large country in the world, with a growth that not only exceeds any developed nation but also major emerging economies such as China.

Regarding the infrastructure sector with special focus on the country's construction industry, the situation is quite grim. The Government of India has clearly recognized this and launched several reform measures to boost sectors like roads, railways, power distribution, rural and urban development. The Union Budget 2016-17 has allocated ₹ 2.21 lakh crore for the infrastructure sector. Also the general budget 2016-17 earmarked an amount of Rs. 3,205 cr. for the development of 100 smart cities across the country by 2020, while nearly Rs. 4,091 crores for Atal Mission for Rejuvenation and Urban Transformation (AMRUT).

Your Company is marketing its products in the region of Mumbai, Navi Mumbai, Thane, Pune, Nashik, Valsad and Vapi regions. Recently the Navi Mumbai International Airport (NMIA) project received its final approval. This will lead to development of huge infrastructure in the area ranging from Ghodbunder to Lonavala. Thus demand for AAC blocks is expected to rise in this region in near future.

Moreover, GST bill has recently been passed and it is expected to be implemented from 1st April 2017. As per model GST law, it seems GST will prove to be beneficial for your company as the taxes on Companies products shall remain unchanged, if not reduced, but the taxes would be implemented on products like Red Bricks which are a direct substitute and which is currently non-taxable item. Thus, this would result in higher demand for the Company's products.

Looking at all the above factors I am quite sure that the Company's future is very bright. We look forward to continuing along our successful path together with you.

Let me now move to the performance of your Company. I am pleased to inform you that your Company has successfully completed its First Financial Year i.e. 2015-16 with Net profit after Tax of Rs. 70.17 Lakhs.

The Board of Directors of the Company has proposed a final dividend of Rs. 0.20/- per equity share of face value of Rs. 10 each in its First year itself.

The Hon'ble high court of Gujarat has, vide its order dated 22nd February, 2016 sanctioned the Scheme of Arrangement and Demerger between Mohit Industries Limited and Bigbloc Construction Limited and their respective Shareholders and Creditors under Section 391 to 394 of the Companies Act 1956. With effect from appointed date i.e. 01st April, 2015, all the assets and liabilities of AAC Block Division of the Mohit Industries Limited becomes assets & liabilities of Bigbloc Construction Limited ("BCL").

Also your Company is in process of getting its shares listed on BSE and NSE.

I would like to thank all our consumer, employees, Suppliers who are directly or indirectly associated with the company for their support and commitment, which helped us to reach where we are now.

I would like to thank our shareholders for their trust and encouragement and assure to serve strong, Profitable and Sustainable Growth.

With Warm regards

Mr. Narayan Sitaram Saboo

The world economy slowed down further in calendar year 2015 on account of lower global economic growth, as compared with calendar year 2014. Global activity continued to decelerate, triggered by slowing growth in emerging and developing markets as they contribute to about 70% of the global growth. In 2015, world economy grew at slower pace of 2.4 percent as against 2.6 percent in 2014. Overall growth in developing-countries slowed in 2015 to 4.3 percent from 4.9 percent in 2014. In contrast to other developing countries, growth in India remained robust, buoyed by strong investor sentiment due to positive government initiatives and higher real incomes due to recent fall in oil prices. AAC (AUTO-CLAVE AERATED CONCRETE) BLOCKS BUSINESS**➤ INDUSTRY STRUCTURE & DEVELOPMENT**

Acceleration of infrastructure projects, strong consumer spending due to lower inflation and monetary easing and gradual improvements in market sentiments would push the GDP rate higher in the years to come. However, the volatile capital flow that may follow monetary policy normalization in the U.S remains a downside risk. Structural reforms initiatives taken by the Government are gaining momentum. These include opening up of 120 million new bank accounts to promote access to finance and easing FDI restriction in such sectors as defence equipment, railways and construction. Also the "Make in India" initiative was launched in September 2014 to promote India as a global manufacturing hub and the Government's focus on digitalization will put India into Fast Track growth trajectory.

Infrastructure being a key driver of the economy is a major force for propelling India's overall development. Implementation of initiatives of the Government like Swatch Bharat, Own house for every citizen and Smart Cities would help the industry to register growth at a faster pace. The initiative of linking bank account to subsidy is expected to result in higher disposable income in the hands of the needy and the poor who are one of your company's core customers.

India's population is fast urbanizing and is expected to grow to 500 million (36%) of total population by 2020. As we expect, this urbanization move will generate unprecedented demand for quality real estate and infrastructure including housing which we already started seeing in some pockets of the country. The development planned by the Government will create additional demand to your company's product i.e. AAC Blocks.

➤ AAC INDUSTRY IN INDIA "AN ECOFRIENDLY INITIATIVE FOR THE CONSTRUCTION INDUSTRY"

AAC became much popular gradually all over the world. Now AAC is one of the most ideal and environment friendly building materials.

Building Material accounts for major component of the construction cost. Depending on the location they can contribute to 60 - 70 % of the cost of construction. For environmentally conscious AAC Blocks means eco-friendly products and for those who occupy buildings built with AAC blocks it means better safety and lower energy costs for cooling or heating.

There is a central government gadget notification mandating government departments and CPWD to use 100% Fly Ash based Bricks in their all constructions directly or through contractors. This factor will help the marketability of AAC product immensely. Fly Ash policy of the Government also mandates that 20% of Fly Ash Generated by a power plant must be given free of cost to SME sector on a priority basis. In INDIA, according to market analysis, currently AAC Blocks manufacturer only produce 20% production as actually demanded in market. They would be highly Demandable in near future

The Government's continued support, focus and encouragement for using green building products has given an additional impetus to the growth of the building material industry. With increasing awareness and acceptance for usage of green building products, market for AAC blocks is expected to grow multi-fold in the years to come.
